SUMMARY

Software developer who loves to build unique & challenging projects. Like dealing with hard problems. Interested in Full Stack Development, Mobile Development.

EXPERIENCE

Full Stack Developer — August 2021 - now
Codeway — *Istanbul, Turkey*

- Codeway builds apps used by more than 65 million users. Developed Front End, and Back End applications. Mobile Application is developed with Flutter, BLoC, and Hive. Front End application is developed with React, TypeScript, and Material UI. Back End application is developed using Node.js, TypeScript on Google Cloud. Website - LinkedIn

Full Stack Developer — Jan 2021 - May 2021
Zippy Pay — *Remote*

- Zippy Pay is a QR-based payment experience in-store and online with unique rewards. Contributed both Back End and Front End. Front End applications are developed using React Native and React. Back End application is developed using Node.js, MongoDB on AWS. Website - LinkedIn

Full Stack Developer — Feb 2020 - Jan 2021
GMC Technology — *Istanbul, Turkey*

- Worked on both Back End and Front End. Used Flutter and React Native on mobile apps. Back End applications were developed using Firebase, Node.js. Plus, integrated Iyzico Turkish payment service, Google Maps, and Youtube API. Website - LinkedIn

Founder — Dec 2019 - June 2020
Diyet-in — *Istanbul, Turkey*

- Diyet-in is a non-profit organization to help people for improving their nutrition knowledge. It was developed using Flutter and Firebase. As a founder of Diyet-in, my role includes all technical work, both Front End and Back End. Also, I organize the dietitian team we have. App Store - Google Play Store

EDUCATION
